

WA's Most Reliable Access Provider for Shutdowns & Fixed Plant Maintenance

WHO WE ARE – SAFE RELIABLE ACCESS SOLUTIONS:

ScafWest is Western Australia's most reliable access specialist, providing end-to-end scaffolding and rope access solutions that keep mining and resources operations running. Since 1992, we have supported iron ore, oil & gas, lithium, gold, copper, mineral sands, salt, nickel and rare earths producers with shutdown scaffolding & rope access, fixed-plant access and innovative engineered solutions. ScafWest's success can be attributed largely to the desire to build long-term relationships with clients and commit resources to building alliances based on an understanding of client need.

WHY ACCESS MATTERS – THE HIDDEN ENABLER:

In mining, access sets the pace for every shutdown and maintenance task. When access is late or not fit for purpose, work fronts stall, risks increase, and production slips. When delivered reliably, access opens work areas on time, keeps crews productive, and accelerates return to service for critical plant. In an industry where every hour of downtime matters, reliable access becomes the hidden enabler of safe, efficient, predictable and profitable operations. ScafWest ensures access strengthens your shutdown and hits critical path deadlines.

OUR SAFETY CULTURE:

At ScafWest, safety comes above all else. It's not a checklist, it's a mindset and a standard we refuse to compromise. Our people are trained and empowered to act, intervene and speak up regardless of role or experience because we live by a simple rule: Don't walk past. With ISO certified systems, an active Safety Committee and a culture of continual learning and improvement, we deliver access solutions that protect people first because reliable work begins with safety.

DON'T WALK PAST

The standard you walk is the standard you set.
Safety is everyone's responsibility!

THE SCAFWEST ADVANTAGE:

ScafWest's mission is to be mine sites most reliable access partner. We are trusted by mine managers for our ability to deliver on our promise consistently and in all environments no matter how challenging.

Outstanding Safety Record:

ScafWest maintains an outstanding safety record built on disciplined systems, experienced supervision, and a culture that puts safety first.

4-Hour Breakdown Response 24/7:

With a commitment to mobilise skilled workers and equipment within 4 hours, ScafWest is the fastest to attend breakdown situations.

Ongoing Fixed Plant Maintenance:

ScafWest integrates seamlessly into online mine site operations ensuring fixed plant maintenance continuous efficiently and safely.

Rope Access Trades:

We supply IRATA qualified rope access technicians with suitable experience and trade certificates for inspection/NDT, piping, mechanical, coating/corrosion control and rigging.

Innovation & Continual Improvement:

With in house design & engineering capabilities, innovation sits at the core of our approach. Clients see continual improvement in safety, efficiency, cost management and confidence in project delivery.

Community Engagement & Support:

ScafWest are committed to providing opportunities and career progression to local workers in the areas we operate along with supporting local communities/clubs in their activities.

Scalable Shutdown Ready Workforce:

We have a substantial pool of skilled, experienced, mines ready workers & s26 supervisors along with the ability to mobilise large work crews to site in short periods of time.

Pricing & Budget Management:

We work within rigorous financial governance frameworks, ensuring cost control, accountability, and reporting that are open, transparent and promote trust between our partners.

ScafWest's proven performance has seen us repeatedly deliver safe, reliable access solutions throughout WA by providing sizable skilled shutdown crews, various rope access trades, suitable equipment & materials and project planning support, all on time and on budget. Our partnerships with key mine sites demonstrate trust, reliability, and capability at scale.
